MISSION BX6708A. ACTUAL TARGET COVERAGE VERSUS PLANNED:

1. [] programmed COMOR targets were covered.
 [] other COMOR targets covered that were not programmed.
 [] total COMOR targets covered
 [] bonus targets
 [] Total

2. [] targets in the JCS list that are being followed at first priority in CIA's bomb damage assessment study also were covered.

B. QUALITY OF TAKE:C. HOSTILE REACTIONS: NegativeD. SIGNIFICANT FINDINGS:

1. No evidence of surface-to-surface missile deployment was noted.

2. A total of 71 SA-2 sites were identified, including one new site. Five of the sites were occupied. Fifty-four sites were unoccupied -- including the one new site. The status of ten sites could not be determined. Two sites were shown to have been returned to agricultural use and have been dropped from the order of battle.

3. Four of the major airfields of North Vietnam -- Phuc-Yen, Hanoi/Gia Lam, Hoa Lac, and Hanoi/Bac Mai -- were covered by the mission. Coverage of Phuc Yen Airfield -- the main MIG base in North Vietnam -- was limited by obliquity and scattered clouds, preventing a complete aircraft count, but clear photography of the other three airfields was obtained.
